

CAREER OBJECTIVE

To secure a position where I can apply my technical skills, learn continuously, and contribute effectively to the growth and success of the organization.

WORK EXPERIENCE

3d Design And Modeling • Internship

Mar 2026

Tamizhan Skills, Virtual

Created high-quality 3D models, animations, and promotional videos using Blender for marketing and visualization projects. Built realistic 3D scenes by applying modeling, texturing, lighting, camera animation, and rendering techniques. Conceptualized creative 3D visual content based on project requirements, ensuring visually appealing and engaging outputs. Learnt industry-standard 3D design workflows by optimizing assets, incorporating feedback, and delivering projects within deadlines.

UI/UX Design • Internship

Dec 2025 - Jan 2026

CodSoft, Virtual

Designed intuitive and user-centric web and mobile interfaces by creating wireframes, high-fidelity mockups, and interactive prototypes using Figma. Conceptualized modern UI layouts by applying design principles, typography, color theory, and responsive design practices. Collaborated with developers and stakeholders to translate design concepts into functional, user-friendly digital experiences. Learnt industry-standard UI/UX workflows by conducting design iterations, incorporating user feedback, and maintaining design consistency across projects.

Graphic Design • Internship

Oct 2025 - Nov 2025

Codec Technologies, Virtual

Conceptualized and designed a complete Finance App UI in Figma, focusing on usability, responsive layouts, and modern design standards. Built an animated 3D product showcase video using Blender by integrating modeling, texturing, lighting, and cinematic camera movements. Learnt professional UI/UX design workflows and 3D content creation while incorporating feedback to deliver high-quality project outcomes. Enhanced the company's digital presence by contributing creative UI designs and engaging 3D visual content for client presentations and marketing.

Full Stack Development • Internship

Oct 2024 - Dec 2024

Rinex.ai, Virtual

Built a fully functional e-commerce web application using HTML, Django, and SQL, implementing core features such as product listings, user authentication, and database integration. Developed responsive front-end interfaces and integrated them with Django's back-end framework to deliver a seamless user experience. Implemented SQL database operations to manage product information, user accounts, orders, and other application data efficiently. Learnt full-stack web development practices by debugging, testing, and optimizing application performance while following industry-standard development workflows.

EDUCATION

B.Tech,

2024 - 2028

Rajalakshmi Engineering College

TRAININGS / CERTIFICATIONS

UI/UX

Oct 2024 - Nov 2024

Rinex.ai, Virtual

PORTFOLIO

[Portfolio link](#)

PROJECTS

[Job portal ↗](#)

Mar 2026

A full-stack Job Portal application built with React (frontend) and Django (backend). This project allows job seekers to browse and apply for jobs, while employers can post and manage job listings.

[3-D animation ↗](#)

Nov 2025

3D animation made in blender

[Ecommerce ↗](#)

Jul 2025

Ecommerce using Django

[Smart habit execution system ↗](#)

Feb 2026

An AI-powered health and habit tracking platform designed to bridge the gap between patients, doctors, and data-driven wellness.

[Finance app design ↗](#)

Aug 2025

Finance app designed in the figma platform

SKILLS

- Django
- Graphic Design
- HTML
- Frontend development
- Web development
- 3D Animation
- CSS
- UI & UX Design
- Blender 3D
- JavaScript

EXTRA CURRICULAR ACTIVITIES

- Active member of the college technical society, contributing to workshops, seminars, and project-based events. Assisted in coordinating tech sessions and supporting student engagement

ADDITIONAL DETAILS

- Completed internships in Web Development, UI/UX Design, Graphic Design, and 3D Modeling. Passionate about AI/ML, full-stack development, and building innovative solutions through real-world projects and hackathons.
